Summary

Front-end Software Developer with 3+ years of experience in web and mobile applications and intermediate backend skills. Skilled at writing clear code that is easy to maintain and debug. I have experience in working with small and large teams across multiple projects. Able to work remotely and in office environments as needed by the company.

Professional Experience

Software Engineer

September 2021 - February 2025

[Fligno Software PH](#)

Cagayan de Oro City, PH

- Analyzed user requirements to develop software solutions and created technical specifications for ASEAN booking app. Analyzed code and corrected errors to optimize output. Test and debugged to determine potential glitches and bugs.
- Developed a web application that has a point of sale. Designed to simplify taking orders and payments for mobile food services. Implements stripe payment gateway and ensures responsiveness in both web and mobile platforms. Used GraphQL for efficient data-fetching architecture and Redux Toolkit for Global state management.
- One of the mobile developers of a food app with online payment, and cash on delivery features. I also ensure the real-time updates of the app in both Android and iOS. Integrate Firebase for notification in both admin web and user mobile applications. Used Typescript as a data types checker and for efficient code debugging.

Front-end Developer

May 2022 - December 2023

[Nibble Dev PH](#)

Cagayan de Oro City, PH

- Structure front-end development for a posting website. Built a RESTful API using PHP Laravel and used React Query for data fetching and updating. Integrate Stripe with monthly subscription-based payments. Manage team meetings with clients to meet feature deadlines. Enhanced SEO for website visibility in search engines.
- Created mobile application using React-Native for both Android and iOS. Used redux-toolkit to enhance data fetching and rendering.

Education

Bachelor of Science in Information Technology

2013 - 2019

Phinma - Cagayan de Oro College

Cagayan de Oro City, Philippines

SKILLS

Language

- JavaScript
- TypeScript
- PHP
