SUMMARY

Software Engineer with 4+ years of experience in web and mobile applications. Skilled at writing clear code that is easy to maintain and debug. I have experience in working with small and large teams across multiple projects. Able to work remotely and in office environments as needed by the company.

WORK EXPERIENCE

Fullstack Developer | Tito Solutions PH

March 2025 - Present

- Designed and developed a Learning Management System (LMS) using NodeJS for the backend and a modern NextJS framework for the frontend, delivering a scalable and maintainable application architecture.
- Integrated frontend and backend services efficiently, ensuring smooth data flow and optimized performance across the application.
- Implemented reusable components and clean architecture patterns to improve code readability, scalability, and long-term maintainability.
- Collaborated in planning features, refining requirements, and continuously improving system functionality based on user feedback and evolving product needs.

Software Engineer | Fligno Software Philippines, Inc.

Sep 2021 - Feb 2025

- Analyzed user requirements to develop software solutions and created technical specifications.
- Developed, tested, and debugged software programs using ReactJS with NextJS as a framework, Tailwind for CSS, and React Native for mobile development.
- Analyzed code and corrected errors to optimize output.
- Assessed code during the testing stage to determine potential glitches and bugs.

Fullstack Developer/Co-Founder | Nibble Dev Team

May 2022 - Dec 2023

- Structuring front-end development, ensuring a cohesive and user-friendly interface.
- Develop and maintain a responsive website that is usable across multiple devices.
- Integrate the Stripe payment gateway.
- Built a RESTful API using PHP Laravel.

EDUCATION

Bachelor of Science in Information Technology

2014 - 2019

Phinma - Cagayan de Oro College
Cagayan de Oro City, Philippines

SKILLS

Technical Skills:

- Frontend: React-Native, React, Next JS, TypeScript, Tailwind CSS, MUI
- Backend: Laravel PHP, NodeJS, NestJS, REST APIs
- Database: MySQL, PostgreSQL
- Tools & Workflow: Git, Agile/Scrum, Docker (containerization basics)

Soft Skills:

- Strong debugging skills
 - Problem-Solving
 - Team Collaboration
 - Adaptability
-
